I support businesses and communities in achieving career, development, and performance potential through collaboration.

With over twenty years of operations and human resources experience, I provide all businesses and industries providing human resource and leadership expertise. I've managed retail, customer service, call centers and sales operations and directly partnered with senior business leaders as a human resources partner. In addition, I am responsible for guest relations for Log Cabin Hideaways and Bushey Guide Service.

I hold a master's degree in education and human resources development, in addition to undergraduate degrees in business administration and management. Strong leadership and program management skills make me successful at partnering with my clients.
